TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Python Flask

Databases: MongoDB, MySQL, SQLite

Tools: GitHub, VS Code, LeetCode

PROJECTS

Resume Analyzer [Link](#)

- Built a full-stack ATS resume analyzer using React.js, Node.js, and MongoDB that scores resumes against a pasted job description for keyword and skill match
- Implemented secure file handling and parsing for multiple resume formats (PDF/DOCX) to ensure broad compatibility
- Implemented real-time resume analysis system to deliver instant feedback and enhance overall user experience
- Reduced manual resume tailoring effort by automating personalized resume and cover letter creation in a single workflow
- Optimized backend processing to handle resume parsing, scoring, and content generation with low response times

Live Coding Interview Platform [Link](#)

- Built a full-stack coding interview platform using React, Node.js, Express, and MongoDB to simulate real-time technical interviews
- Integrated a screen-sharing module allowing interviewers to monitor a candidate's live coding approach and problem-solving process throughout the assessment
- Developed a real-time test-case evaluation system showing instant pass/fail results to interviewers
- Managed authentication and role-based access control to separate interviewer and candidate dashboards securely

EXPERIENCE

Software Development Intern | Bharat Electronics Limited (BEL)

- Worked within an enterprise software development team, gaining hands-on exposure to real-world development workflows, coding standards, and collaborative engineering practices
- Reviewed production-grade codebases and participated in code reviews, understanding code quality, optimization techniques, and best practices for maintainable software
- Gained practical insights into team communication, project management processes, and industry-level development practices in a professional setting

Frontend Development Intern | Guidevera

- Developed and maintained responsive, user-friendly frontend interfaces using React.js and CSS, ensuring consistent design, cross-device compatibility, and an intuitive user experience across the platform
- Integrated frontend components with backend services using Axios, handling API requests efficiently and ensuring seamless, real-time data synchronization between client and server
- Built and enhanced the admin panel with features for managing users, content, and application data, improving operational efficiency and giving administrators better control and visibility
- Debugged and optimized existing UI components to improve page load performance and eliminate rendering inconsistencies across browsers

EDUCATION

2023 - Present,
Dehradun, India

Bachelor of Technology in Computer Science and Engineering
Dev Bhoomi Uttarakhand University

CGPA : 9.4

2022 - 2023

Class XII (CBSE)
MKVN Senior Secondary School

GRADE : 88%
