EDUCATION

Bachelor of Technology in Computer Science and Engineering
Dev Bhoomi Uttarakhand University

2023 – 2027
CGPA : 9.0

Class XII (CBSE)
MKVN Senior Secondary School

2022 – 2023
Percentage : 88%

Class X (CBSE)
Daffodils Public School

2020 – 2021
Percentage : 93%

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, Python Flask

Databases: MongoDB, MySQL, SQLite

Tools: GitHub, VS Code, LeetCode

EXPERIENCE

Frontend Development Intern | [Guidevera](#)

15 July 2026 – 30 August 2026

- Worked on the frontend of different projects using React.js, HTML, and CSS.
- Built and improved user interface pages to make them clean, responsive, and easy to use.
- Worked on frontend components and connected them with backend APIs using Axios.
- Fixed UI issues and improved the overall look and performance of project pages.

Software Development Intern | **Bharat Electronics Limited** ([BEL Kotdwara Unit](#))

30 June 2025 – 31 July 2025

- Learned about important projects carried out by BEL and understood how technology is used in real industry projects.
- Learned the basic concepts of computer networking and how networks are used in an organization.
- Got practical exposure to technical discussions and professional work in an industrial environment.
- Learned how software and networking concepts are connected with real-world engineering work.

PROJECTS

Resume Analyzer

 [GitHub](#)  [Live Demo](#)

- Built a full-stack resume analyzer that checks a resume against a job description, using React.js, Node.js, and MongoDB.
- Gives an ATS-style score and shows how well the resume matches the job description.
- Checks important skills and keywords, and shows missing or relevant information.
- Users can upload their resume and get feedback to improve it.
- Can generate a better resume and a cover letter based on the job description.

CodeIt — Live Coding Interview Platform

 [GitHub](#)  [Live Demo](#)

- Built a full-stack platform for conducting live technical coding interviews using React, Node.js, Express, and MongoDB.
- Interviewers can create interview sessions, and candidates can join using the interview details.
- Supports live coding with real-time code execution and test-case results, so interviewers can see if the code works.
- Added live chat, video calling, and audio calling for real-time communication during the interview.
- Added screen sharing so the interviewer can see the candidate's coding process.
- Added separate interviewer and candidate dashboards with role-based access.
